Sample No : 405-2014-33000727
Page : 1 of 1
Status : 00 Satisfactory

I, the undersigned Public Analyst for Leicester City Council

certify that at on the 15 January 2014

the sample marked:

Date sample Taken	Reference Number, Description, etc	Weight or Measure
09/01/2014	LCC/NC13-14/3.2/LSW/2A ENGLISH MINCED STEAK Micheal F Wood Butchers Seal No: WA 363224 Formal	

was received by me from you

I certify that the sample was analysed by me or under my direction and the results are as follows:

Bos taurus (beef)	detected major part (60-100%)
Capra hircus (goat)	not detected
Equus caballus (horse)	not detected
Gallus gallus (chicken)	not detected
Meleagris gallopavo (turkey)	not detected
Ovis aries (sheep)	not detected
Sus scrofa (pig)	not detected

My opinion and observations are:

Testing was carried out at Medigenomix laboratory, the test is accredited to ISO 17025.

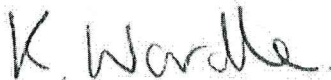

DNA was extracted from the macerated sample and analysed by real time PCR. The sample was found to contain mitochondrial DNA from only one species as indicated above. The test is semi quantitative and measures the relative amount of DNA from each species tested. No labelling was present with the sample.

On the basis of the results the sample was satisfactory.

I further certify that the sample had undergone no change which would affect my results, opinion or observations.

Certified by me this 5 day of February 2014 at Wolverhampton
